

MAC OS Ethernet Installation.

- 1) Install the driver by running the downloaded Ultra Magicard OS-X driver.pkg
- 2) Select the Apple icon at the stop left of the screen and select **System Preferences**

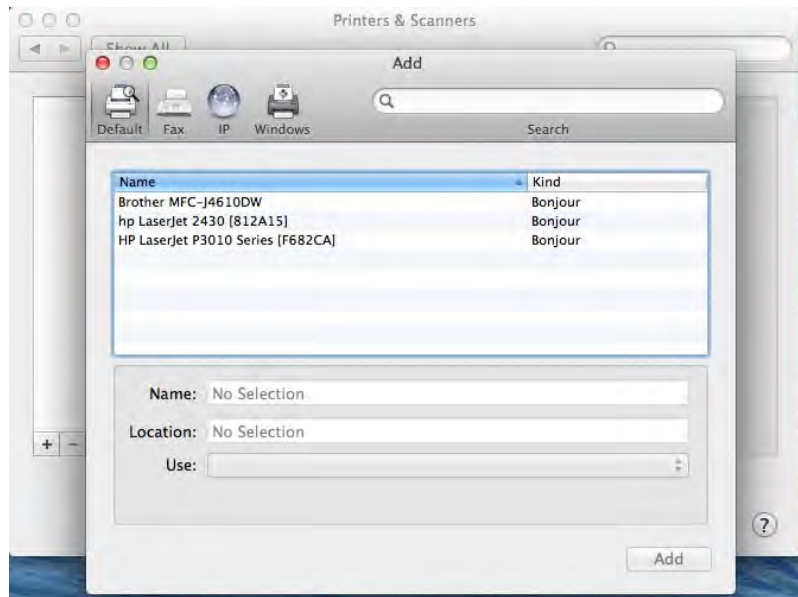

- 3) Once System Preferences appears, select **Printers & Scanners**

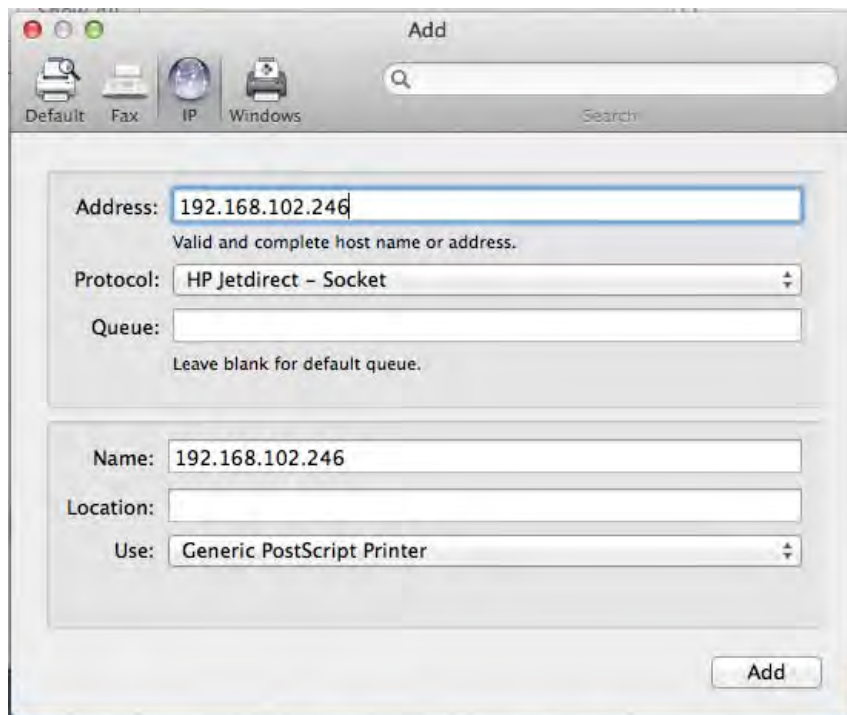

- 4) Within Printers & Scanners select the '+' sign to add a Printer.

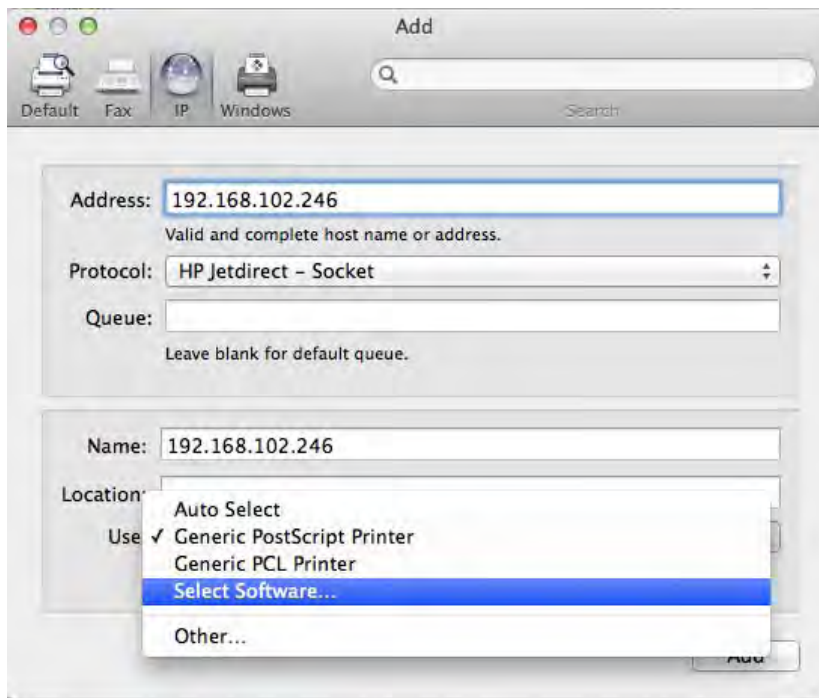

5) The following Add dialog will appear

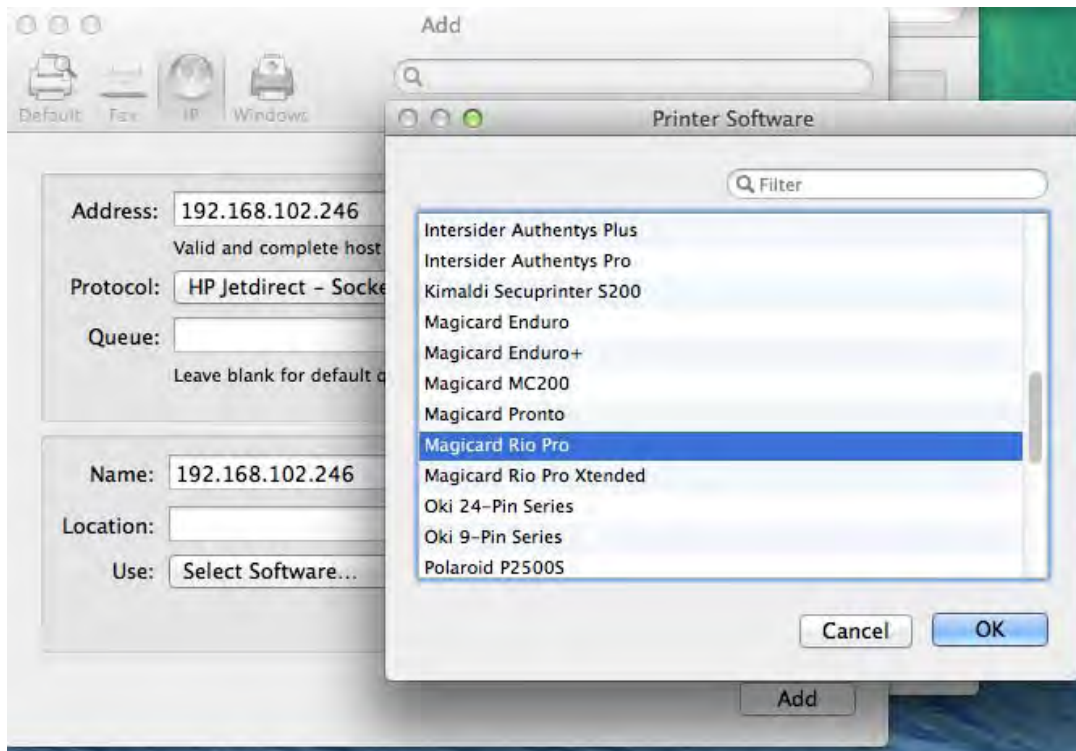

6) Click on the IP icon and enter the IP address and ensure that the Protocol is set to HP Jetdirect - Socket

7) Click on **Use:** and select **Select Software ...**

8) The Magicard models will be listed for selection so select one e.g. Magicard Rio Pro

- 9) On selection of OK the printer will be listed as shown below ready for selection within the MAC applications.
